

Loren L. Arp P.T.
President

Background: Augustana College – Rock Island, Illinois.
BA in Physical Education – 1971

University of Iowa- Iowa City, Iowa.
Certificate in Physical Therapy – 1974

Loren has been a physical therapist for 36+ years and as a clinician has held many regional and national positions pertaining to rehabilitation techniques and human performance testing. He lectures nationally on isokinetic human performance testing and is recognized as an authority on testing outcomes.

Over the past two decades, Loren has expanded the science of isokinetics through clinical study and currently is researching isokinetic strength-duration curves as it related to diagnostic conditions.

He continues as a co-founder and president of Cost Reduction Technologies with corporate headquarters in Davenport, Iowa.
